

Every week the children can earn a silver or gold certificate in class. To do this they must get onto the gold or silver traffic light. If they get on gold they earn a golden ticket, meaning they have the opportunity to win a special prize at the end of half term!

In their Wider Curriculum lessons, children have been learning about potions through science, history and art lessons. So far this is proving to be a very fun topic!

September

During the first week of term, we focused on an artist to celebrate Art week. In Year 4, we did some work on Pablo Picasso and created some outstanding self-portraits!
